

Purpose and Need

Key Reasons for SATS Improvements:

- Addressing traffic growth and congestion
- Improve traffic safety
- Provide access to opportunity – connecting communities
- Serve regional growth
- Serve areas of new regional development
- Serve major freight movements
- New crossing of Arkansas River

Purpose and Need

Need:

Analysis of Alternatives

SATS will compare three types of alternatives:

- No-Build Alternative
- Upgrading and Connecting Existing Roads
- New Freeway Bypass Corridor

Comparing these alternatives will help determine if a new freeway bypass is needed or if local road improvements will be as or more effective.
